When It Needs To Be Accelerated

With speed and agility, Hummingbird™ digital print solutions for corrugated packaging delivers magnificent graphics and a print-on-demand capability. Brands are printing what they want, where they want and when they want to expand and enhance brand experiences. With vibrant colors, stunning photos, personalization, promotions, and dynamic tools, Hummingbird's high-graphics entertain and engage the consumer.

Hummingbird's large format, industrial inkjet printing is ideal for short runs, long runs and everything in between. It satisfies variable data and creative versioning requirements and simplifies the graphics packaging supply chain.

Hummingbird™ provides high-quality inkjet printing for corrugated packaging that creates supply chain efficiency.

Solutions

- Large format digital preprint for small runs, large runs and everything in between
- Speed-to-Market: weeks vs. months from PO to printed volume
- Dynamic, aggregated batching capability for efficiency and creative flexibility
- Frequently change graphics to test market brand and marketing messages
- Industrial, wide-web formats for large boxes and bulk bins
- Inventory and warehousing cost reduction
- Packaging obsolescence and waste reduction
